

Strommarkttreffen

Fossil futures, scenarios, & stranded assets

Dawud Ansari

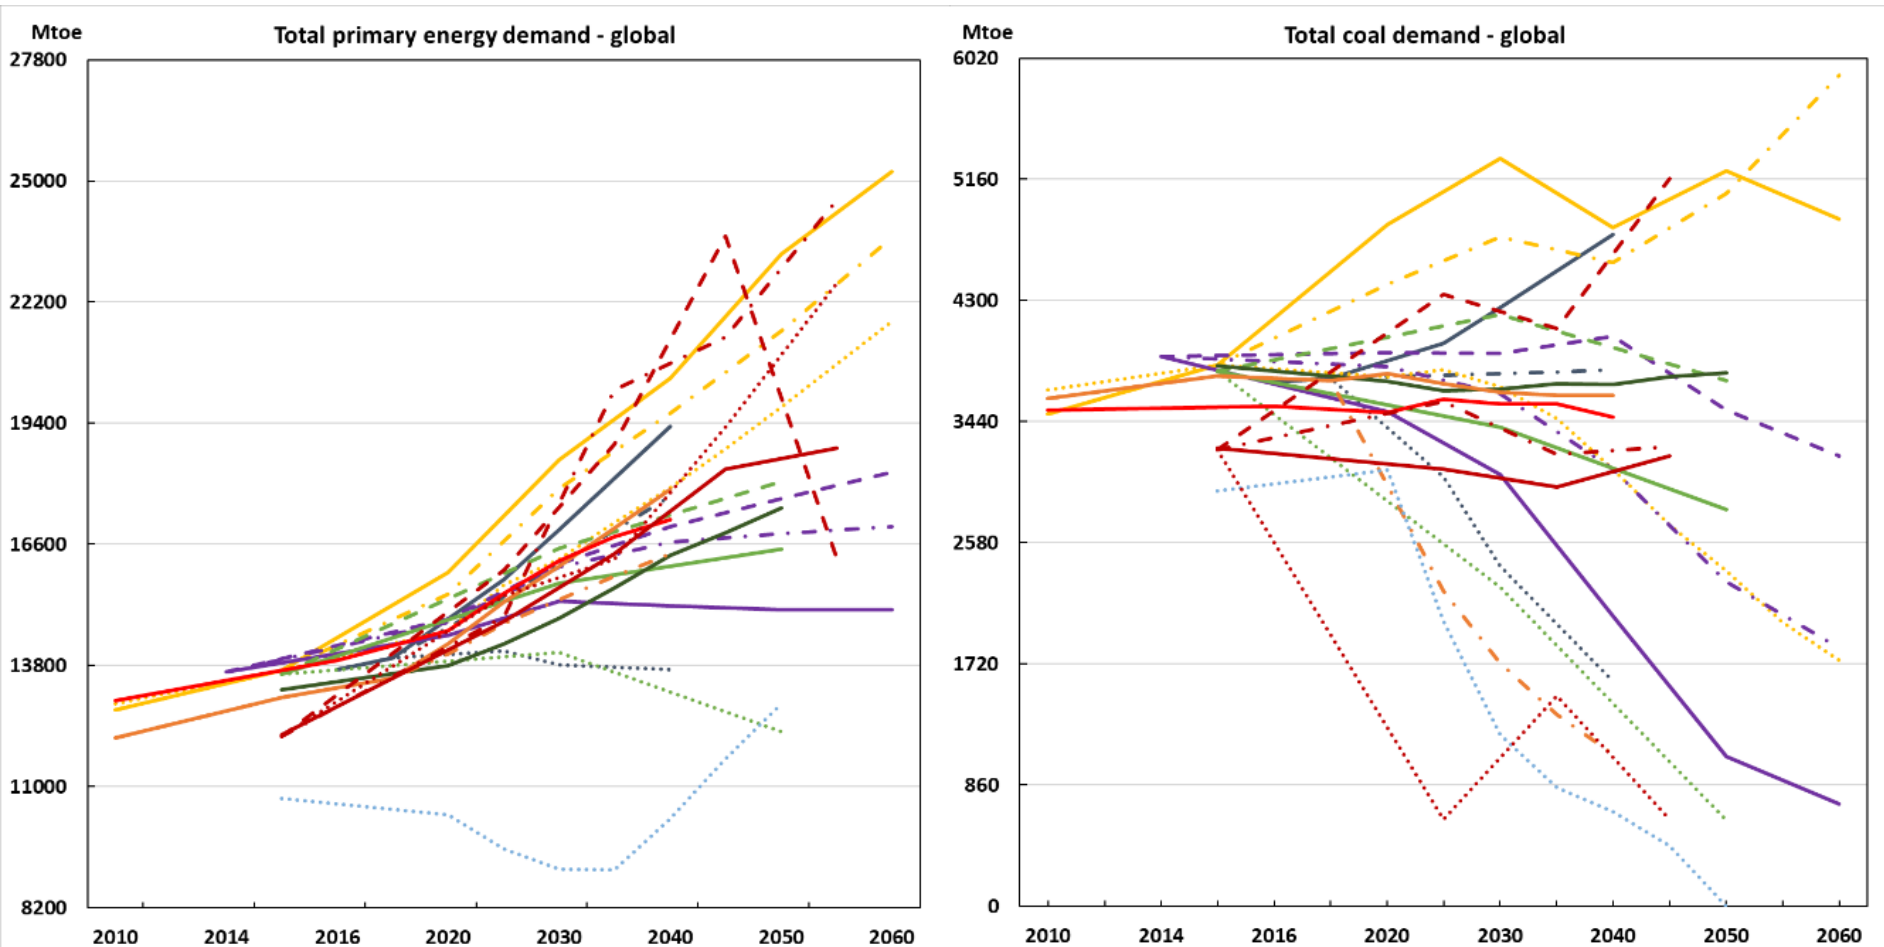

Berlin, 02.08.2019

GEFÖRDERT VOM

Bundesministerium
für Bildung
und Forschung

Quo vadis?

a panel of prominent outlooks (IEA, WEC, MIT, Shell, BP, Equinor, EWG, ExxonMobil, DIW-REM)

The DIW-REM outlook

Business as usual

Survival of the Fittest

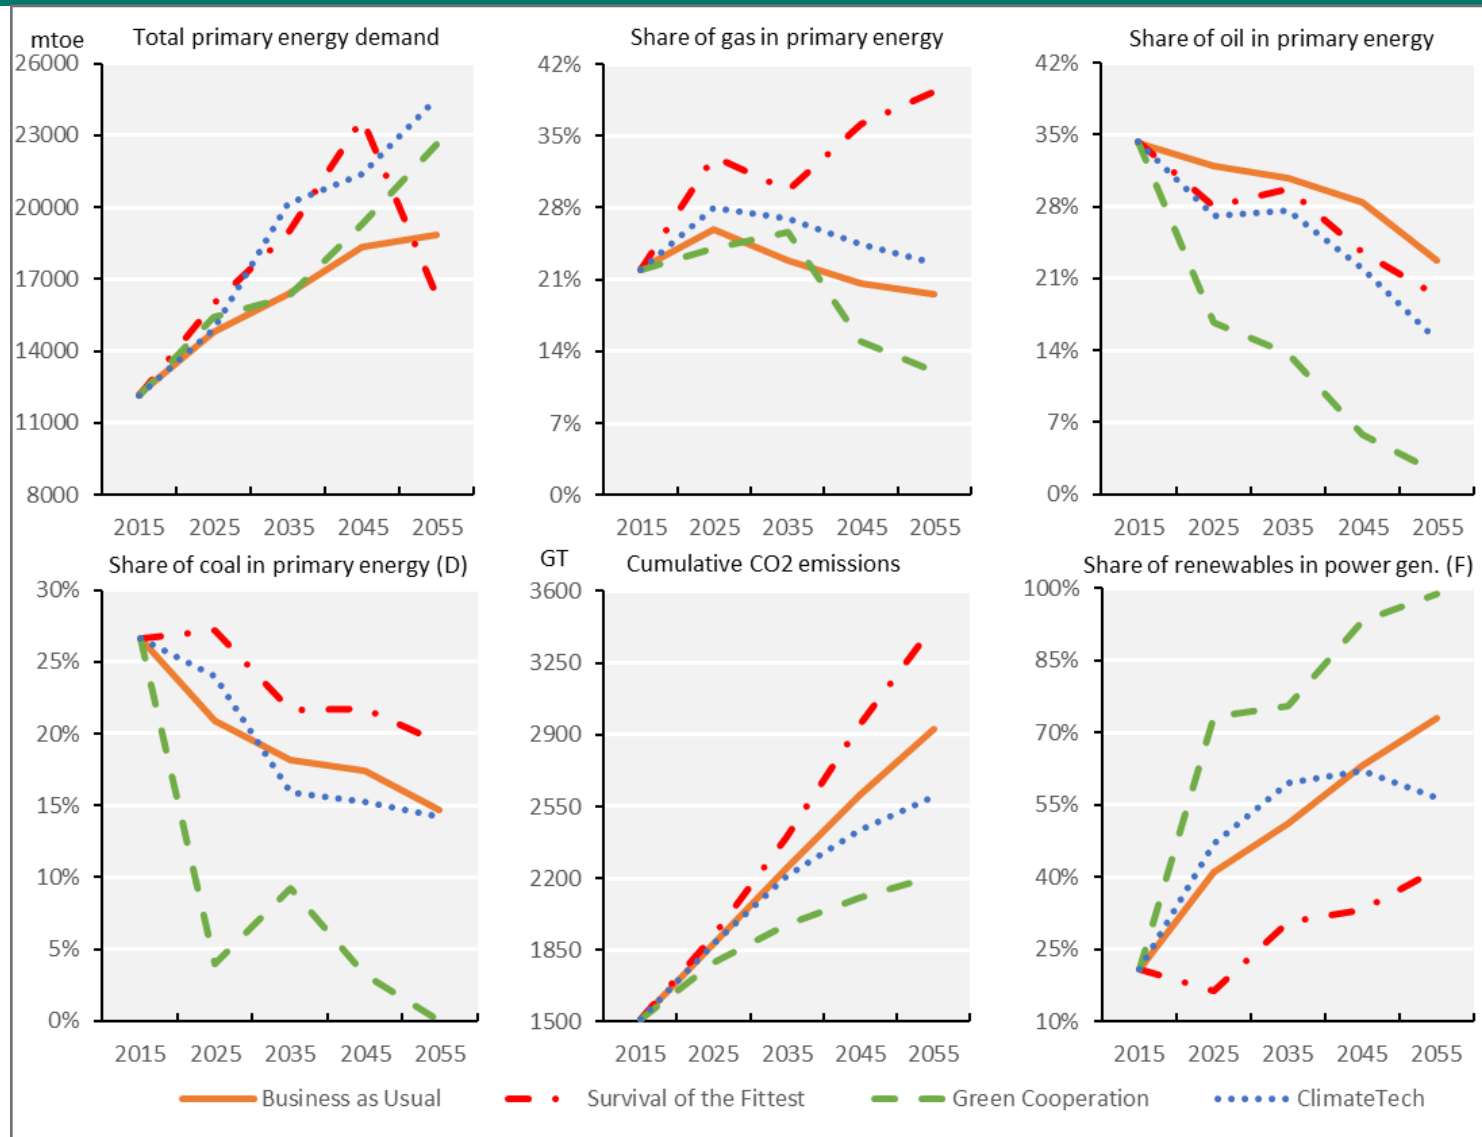

Green Cooperation

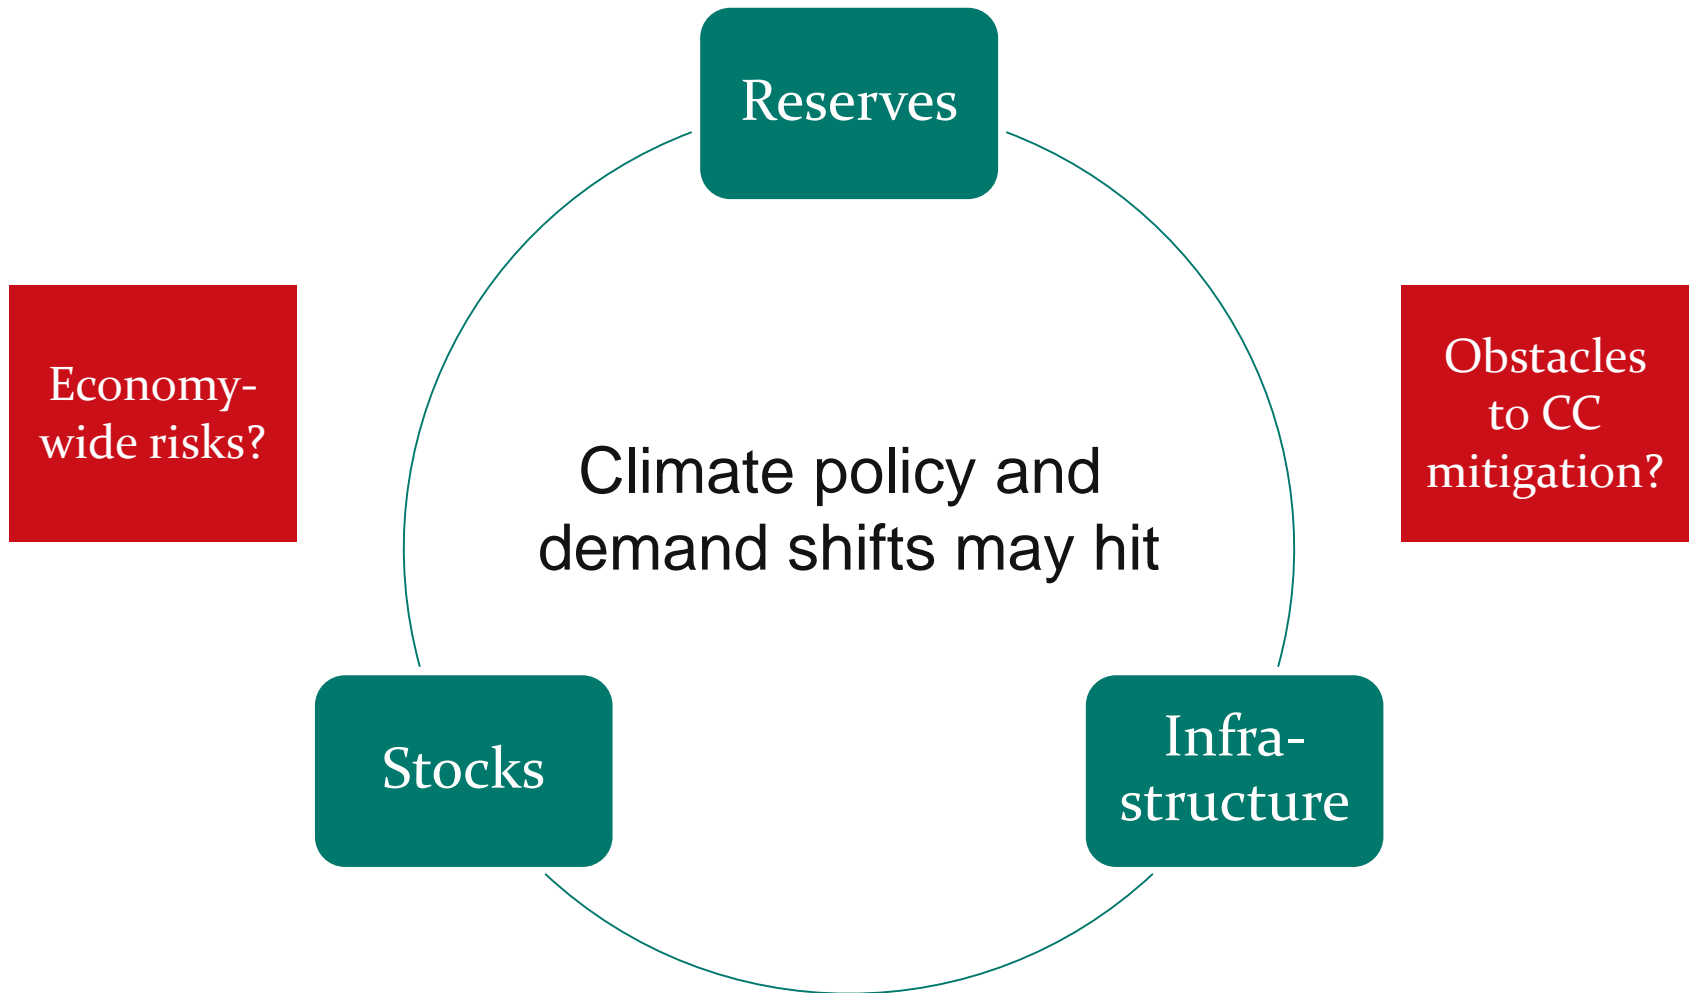

ClimateTech

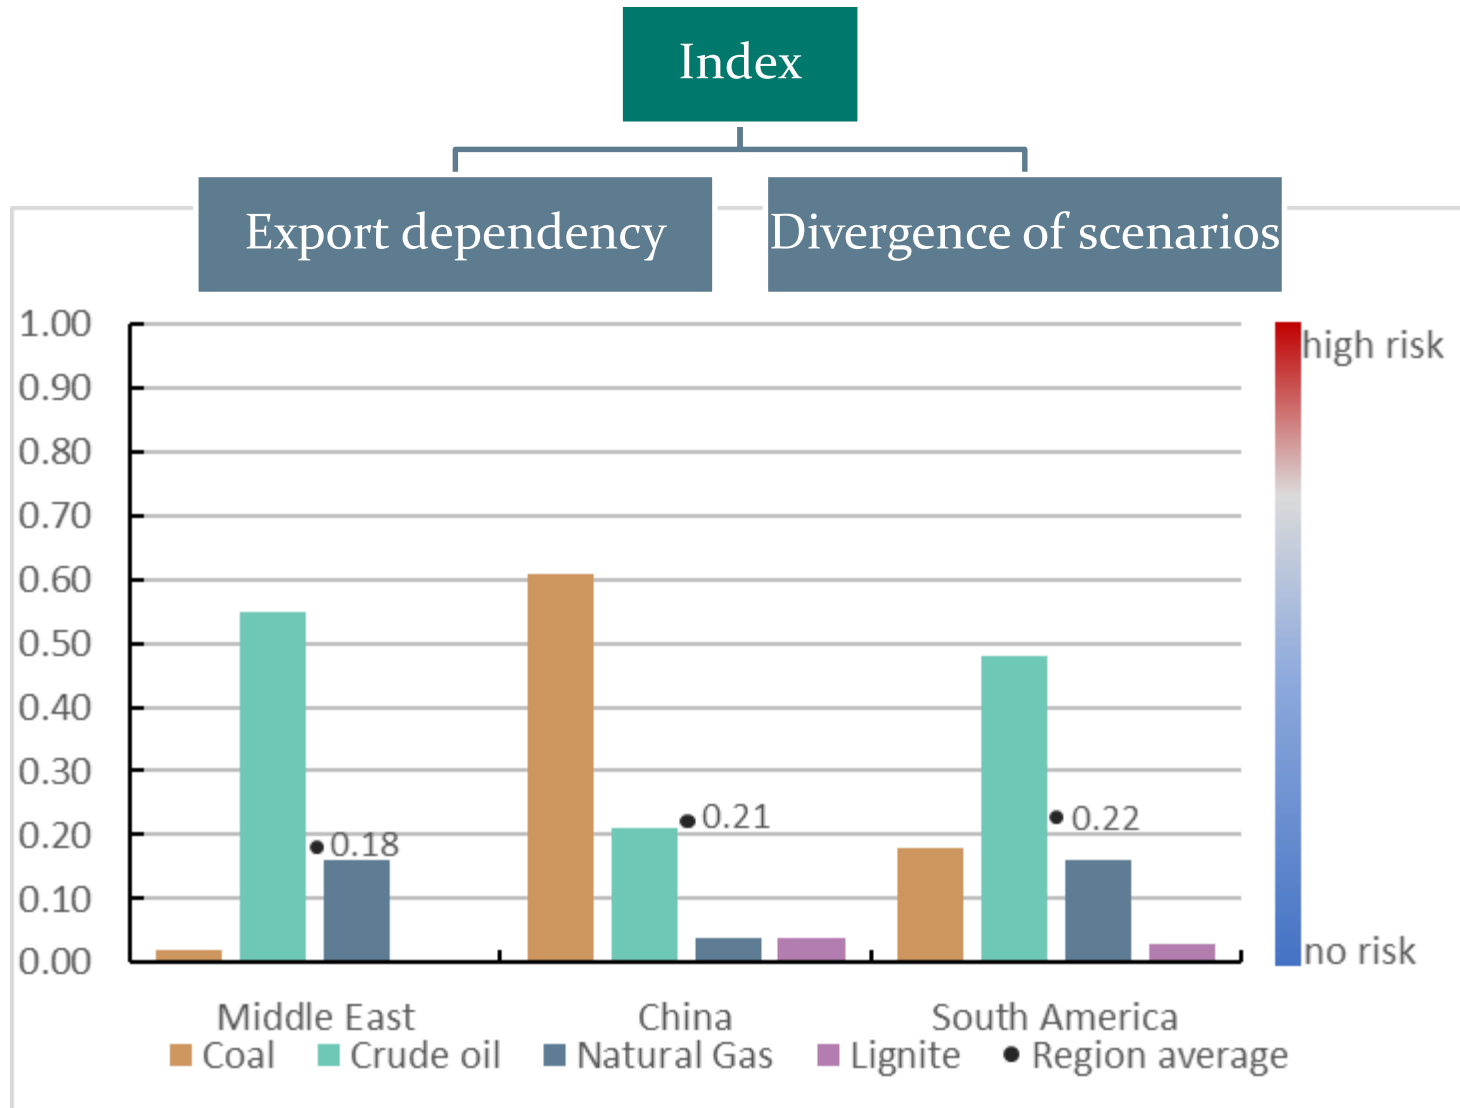

The DIW-REM outlook

Stranded assets

Stranded assets

Key takeaways

- Uncertain future for (all) fossil fuels
- The energy transition needs to consider factors far beyond economics.
- Stranded assets: An oversimplified issue, yet relevant in all case studies
- Missing economic diversification as a crucial issue
- Have a look at our new outlook

Thanks for attending!
